
CARDINAL CHAINS

OFFICIAL SOLUTION BOOK

A game by Daniel Nora

About this book

This book contains the solutions to all puzzles in Cardinal Chains. It was designed for ease of use: puzzles can be searched quickly by page number, and the solutions are presented visually, exactly as you would see them in the game. The book is also optimized for printing.

Each puzzle is presented in two ways: landscape and portrait. Landscape is how you normally see the puzzles when playing Cardinal Chains on a computer or on a phone oriented horizontally. Portrait is how you may see the puzzles if, for example, you resize the game's window on your computer or if you play on a phone oriented vertically.

Depending on your color theme setup within the game, the colors presented here may appear slightly different from when you are playing. If you wish to see the same colors in the game as you see in this book, go to the options menu and set both "Color Theme A" and "Color Theme B" to "Light" (or set "Swap Themes" to "Disabled" and "Color Theme A" to "Light").

If you have any comments or requests, feel free to reach me on Twitter @DanielNora999, or send an email to support@danijmn.com.

Happy chaining!
